II	**Module II: Submergence of Nature in Space** The ever-present existence in the form of nature submerged in space; nature classified into two categories – material and consciousness, and four orders; the form, property, natural characteristic and self- organization of the four orders, General direction and process of evolution in the nature/ existence.	08
III	**Module III: Human Being as an indivisible part of Nature** Human being as an indivisible part of nature; various types (five classes)of human beings; human being in the combination of self and body; purpose of self as realization, prosperity for the body; need ofbehavior and work for attaining the goals of realization and prosperity	08
IV	**Module IV: Fulfillment of human goal of realization and prosperity** Following natural, social and psychological principles for actualizing the human goal; form of conducive society and order for such practices,study process- achieving realization through self-study and practice while living in such a society (social order).	08
V	**Module V: Human Conduct based on Madhyasth Darshan** Description of such a realized self, continuity of happiness, peace, satisfaction and bliss through realization, conduct of a realized human being. Possibility of finding solutions to present day problems (such as inequality of rich and poor, man and woman etc.) in the light of it.

KOE098 HUMAN VALUES IN BAUDDHA AND JAIN DARSHAN

Catalogue Description: Bauddha and Jain Darshan form a part of the philosophy of Indian tradition. This course outlines the basic concepts and principles of these two philosophies and provides scope for further reading of the philosophies, so as to gain clarity about the human being, the existence and human participation i.e. human values expressing itself in human conduct.

It is to be kept in mind that Darshan means realization which calls for developing the capacity to see the reality in oneself directly. So, any study of Darshan shall help develop this capacity in the students through proper steps of practices and shall not just provide the information.
