### Objectives of Organizational Behaviour

- The organizations in which people work have an effect on their thoughts, feelings, and actions.
- These thoughts, feelings, and actions, in turn, affect the organization itself.
- Organizational behaviour studies the mechanisms governing these interactions, seeking to identify and foster behaviours conducive to the survival and effectiveness of the organization.

1. Job Satisfaction.
2. Finding the Right People.
3. Organizational Culture.
4. Leadership and Conflict Resolution.
5. Understanding Employees better.
6. Understand how to Develop Good Leaders.
7. Develop a Good Team.
8. Higher Productivity.

## Why Study Engineering Ethics?

- Make decisions – make the right choice
- Take action – do the right thing
- Personal integrity and self-respect
- Element of professional reputation
- HIGH ETHICS -> HIGH PROFITS
- increased ethical **sensitivity**
- increased knowledge of **relevant standards of conduct**
- improved **ethical judgment**
- improved **ethical will-power** (i.e., a greater ability to act ethically when one wants to).

**Practicing engineers are more apt to get into trouble as a result of a failure to properly anticipate and handle ethical problems rather than as a result of a traditional engineering problems!**

- In the year 2004, he joined as Principal, Government Engineering College, Bikaner. At that moment the institute was in nascent stage and it had bad memories as it was placed in No Admission category by AICTE due to absence of its building and staff. Chosen by the local minister as Principal of ECB.
- Teachers and Non-Teachers – Mostly Guest faculty. Students of two branches were good and motivated, from Low SES.
- Vicinity behind-wool washing, stinking. It all moved him to serve them better.
- So a huge responsibility was entrusted upon him by the State Government to do the needful by way of strengthening the financial, administrative as well as academic improvement of Govt. Engineering College, Bikaner.

### Why Regrets?

- Life is made up of choices
- When we make a choice out of all possibilities, we choose a life
- If we had made a different choice, the outcome would have been different
- When we regret about our life or something about our life, we are essentially regretting about the choice we made
- If so, why did we make that choice at that point
- Did we make that choice or someone else made that choice for us
- Did we even know how to make the choice

It was a great Initiative by AICTE FDC. I am thankful to AICTE for giving me this opportunity to conduct online STTP for faculty members of technical institutions and industry experts of India free of cost. I got huge response from registration as well as lots of compliment for arranging the online short term training program, especially about speakers and delivery of contents. I really thanks to AICTE for providing me such facility to arrange such learning and motivational events.

**Regards**
