

Date: 27th Sept. 2022

A Report of Course/Program Outcome Awareness Workshop

Resource Person: Dr. Jay Singh, Member - IQAC, Prof. & Head – CILD GL Bajaj ITM Greater Noida U.P.

Event Date: 24th September 2022

Event Time: 10:00AM onwards

Event Venue: SBG Hall, 2nd-floor AB-II.

No. of Participants: 86 (EEE-6, MCA-12, ECE-1, MBA-12, CSE-52, ASH-3)

The objective of the workshop: To make aware of the course outcome, program outcome, and attainment calculation.

The outcome of the Workshop: Able to design course outcomes and calculate attainment.

Nowadays, we all are focusing on outcome-based education, not output based. In fact, the whole world is trying to educate people with the added values, i.e., outcome-based learning. In outcome-based education, awareness of key attributes plays a major role among students and teachers in scoring marks with added value. Every institute/university has prepared Course Outcome (CO), Program Outcome (PO) and program-specific outcome (PSO) for the same. All students and teachers should be aware of CO, PO, PSO and their mapping as well. There are a number of faculty members in the institute who have joined after NBA accreditation, and they may not aware of the CO, PO, PSO, and their mapping as well as attainment process. For such faculty members, the **Centre for Innovation in Learning & Development (CILD)**, **Internal Quality Assurance Cell (IQAC)** & Department of EEE, GL Bajaj ITM jointly organized a Course/Program Outcome Awareness Workshop dated 24th September 2022.

A total of 86 faculty members participated in the workshop and interacted with the speaker Dr. Jay Singh. Speaker discussed about International Engineering Alliance (IEA), Washington Accords and Outcome Based Education (OBE). Later he has healthy discussion on the framing of institute/department vision/mission, Program Educational Objective (PEO), Course Outcome (CO), Program Outcome (PO) and Program Specific Outcome (PSO). Also, he discussed about CO, PO, & PSO mapping and attainment.
