

REPORT ON

**All-India Students, Young Professionals, Women in Engineering, and Life Members Congress  
(AISYWLC 2025)**

hosted by

**IEEE India Council(Gujarat Section), INDIA**

GL Bajaj Institute of Technology and Management (GLBITM) proudly participated as a **Silver Sponsor** at the prestigious **All-India Students, Young Professionals, Women in Engineering, and Life Members Congress (AISYWLC 2025)**, hosted by **IEEE India Council**. The three-day event was held across two venues — **Adani University and Nirma University, Ahmedabad** — from **31st October to 2nd November 2025**. A delegation of **eight students and one faculty member** represented our institution at this national congress.

The congress brought together students, educators, and young professionals from across the country to explore impactful themes such as **innovation, sustainability, women empowerment, entrepreneurship, and technology-driven leadership**.

The event commenced with an inspiring inauguration centered on the theme **“Leadership for a Sustainable and Inclusive Future”**, which included keynote talks on emerging technologies and women’s empowerment, followed by collaborative networking sessions.

Day two comprised **technical workshops, panel discussions, and leadership-focused sessions** that encouraged active engagement in innovation, sustainable engineering solutions, and entrepreneurial growth beyond academic boundaries.

The final day included interactions with **industry leaders**, reflections from delegates, and a closing ceremony celebrating collaboration, learning, and the spirit of youth leadership within the IEEE community.

Throughout the event, our students actively participated in several impactful workshops and discussions, including:

- **Technology with Eyes of LM**
- **Role of AI in Sustainable Engineering**
- **Connecting Campuses to Industry**
- Networking and skill-building activities fostering innovation and teamwork

Eminent speakers from academia, industry, and government emphasized the **4E’s Mantra – Employee, Entrepreneur, Education, and Experience**, strengthened by **Expertise and Exposure**, focusing on bridging the academia–industry gap and preparing future-ready talent.

The congress atmosphere was **vibrant, motivating, and highly collaborative**, enhancing confidence, professional networking, and interpersonal skills among participants. Interactions with delegates from diverse domains broadened their understanding of global leadership roles in engineering and technology.

Participation in **AISYWLC 2025** was a transformative learning experience for the GLBITM delegation, reinforcing their capabilities in **leadership, communication, critical thinking, and professional engagement**, aligned with the IEEE vision of **“Advancing Technology for Humanity.”**
