# **Name of Journal:** INTERNATIONAL JOURNAL OF ELECTRICAL ENGINEERING & TECHNOLOGY (IJEET)

## Name of Publisher: IAEME Publications

## Other Details: Volume 11, Issue 6, November-December (2020)

## **Read More:**

#### AIM AND SCOPE OF THE JOURNAL

International Journal of Electrical Engineering & Technology Research (IJEET) is a per reviewed. Online and Print journal published by IAEME Publication. IEET aims at providing intellectual platform for high quality research encompassing all the sub-domains of Management.

IJEET is an international forum for research that advances the theory and practice of management. The journal publishes original works with practical significance and academic value. Authors are invited to submit theoretical or empirical papers in all aspects of management. International Journal of Electrical Engineering & Technology (IJEET) publishes research articles, case studies and reviews within the whole field of Management Research, and it will continue to provide information on the latest trends and developments in management subject

#### JOURNAL DESCRIPTION

IJEET is an international, refereed journal published with the aim to provide an online publishing platform for the academia, management researchers, and management students to publish their original works.

- Aim to link the research and practice in management
- Focus on the management and firm levels of analysis, rather than policy or sector issues
- Adopt an inter-disciplinary, multi-functional problem-oriented approach
- Integrates management of technological, organizational and market innovation.

#### SUBJECT AREA

The journal publishes original papers in the field of electrical engineering and informatics which covers, but not limited to, the following scope:

- Power Engineering
- Electrical Machines
- Instrumentation and control
- Electric Power Generation
- Transmission and Distribution Power Electronics
- Power Quality & Economic Renewable Energy
- Electric Traction, Electromagnetic Compatibility and Electrical Engineering Materials

- High Voltage Insulation Technologies
- High Voltage Apparatuses
- Lightning Detection and Protection
- Power System Analysis, SCADA and Electrical Measurements
